DCC Inc.

“Setting the Industry Standard”

Sodium Hypochlorite Delivery: (Liquid Bleach)

- Delivered directly in Mini-Bulk (100 to 5200 gallons) and pumped into containment tanks by our fleet of unique DOT approved tankers (from up to 400ft away).
- Our customers only receive the highest quality of Liquid bleach available (NSF 60 certified for drinking water, EPA registered, AWWA).

Miscellaneous Chemical Delivery:

- Utilizing an additional flat bed area and lift gate, our tankers deliver a wide array of support products including CO₂, muriatic acid, sodium bicarbonate, granular chlorine, tri-chlor tablets, soda ash, and many more.
- DCC Customers enjoy the luxury of receiving parts & supply orders with each chemical delivery at no extra cost.

Sodium Hypochlorite vs. Calcium Hypochlorite

No Touch System	Constantly Handling
In Liquid Form	Must Dissolve
Non Combustible	Combustible
Requires Tank Storage	Feeder & Pail Storage
Tanks Refilled by DCC	Refilled by lifting 100lb pails
100 Gallons = 147 Pounds	1,000 Gallons = 1,466 Pounds
500 Gallons = 341 Pounds	5,000 Gallons = 7,331 Pounds

*Formulas & Calculations derived from the 2007 National Swimming Pool Foundation CPO Manual.
